PROFESSIONAL SUMMARY

Full Stack Engineer and Senior IT Technician with over **8 years in IT** and **3 years of professional software development**. Co-founder and COO of SOMATEC, leading the delivery of SaaS, fintech and ERP platforms for the Angolan market — from infrastructure to interface. Built payment systems with QR verification, anti-fraud protection, KYC and AES-256-GCM encryption, with knowledge of Angola's legal framework (Law 22/11, AML/KYC, BNA). Specialized in multi-tenant architectures, high-availability APIs and GDS integrations. Systems programming background at **42 Luanda** (level 5.13/21).

PROFESSIONAL EXPERIENCE

SOMATEC — Software Marketing e Tecnologia

Jan 2023 – present · Luanda

Co-founder & COO · Senior Full Stack Engineer

- Leading delivery of **5+ SaaS products** in production: multi-tenant ERP, fintech, e-learning, on-demand and B2B commerce.
- Built a fintech platform with QR payments, digital wallet and fleet management (~180 endpoints, AES-256-GCM, CI with GitHub Actions).
- Architected **MESA Platform** — multi-sector SaaS ERP with per-schema PostgreSQL isolation and configurable tenant flavors without code forking.
- Built **WOL Commerce** — B2B and live commerce platform in production, with in-house analytics and centralised media in MinIO.

ChimGam

2024 – present · Luanda

QA Engineer · Tech Leader

- QA and technical leadership on **FlyPort** — B2B SaaS for travel agencies integrated with Travelport GDS.
- +5,700 pytest tests in parallel CI; OpenAPI 3.1 generated from code; Django-Q with 9 active tasks in production.

AS Consulting & Investments · Júlios AN

Mar 2023 – Jan 2026 · Luanda

Senior IT Technician · Full Stack Developer & DevOps

- Full IT fleet management: servers, TCP/IP networking, virtualisation, DNS and remote support.
- Developed internal applications in Laravel/PHP and Node.js with Docker deployments on VPS.

Grupo ZonaLink · Freelance / Consulting

2018 – 2024 · Luanda

PHP/Laravel Developer · IT Technician

- Feature development in PHP/Laravel at Grupo ZonaLink (Jul–Sep 2024).
- Technical support, system installation and IT consulting for enterprise clients (2018–2023).

FEATURED PROJECTS

Fintech & Fleet Management Platform

In production · Angola

NestJS 11 · React · Tailwind v4 · PostgreSQL · Redis · MinIO · Firebase · WhatsApp API · Docker

Digital payments (QR, Multicaixa, wallet) and transport fleet management — mobile app, web dashboard and public API.

- Double anti-replay, HMAC-SHA256, AES-256-GCM, pessimistic locks with deadlock retry, idempotency by header.
- KYC via national ID QR, panic/GPS, multi-channel notifications. Jest + Playwright E2E in CI. Compliance with Law 22/11 / AML/KYC.

FlyPort — B2B SaaS for Travel Agencies

flyport.tech · ChimGam

Django 6 · React 19 · PostgreSQL · Redis · Travelport GDS · Fabric.js · Nginx · Cloudflare

Travelport GDS integration for PNR reading and PDF ticket generation with agency branding. *Role: QA Engineer → Tech Leader.*

- +5,700 pytest tests; CI in 8 parallel slices; OpenAPI 3.1 from code; progressive Django → React 19 SPA migration.
- Django-Q with 9 active production tasks; import-linter for domain boundaries; Gunicorn/Uvicorn + Nginx.

MESA Platform & Surface Manager

In production · SOMATEC

NestJS · SvelteKit · PostgreSQL · Redis · Prisma · Docker

Multi-tenant SaaS ERP for 5 sectors (pharmacy, hospitality, education, restaurants, retail). Per-schema PostgreSQL isolation and configurable tenant flavors without code forking.

WOL Commerce · Online Tutoring Platform · FIP

Production · SOMATEC

NestJS · React · MinIO · Fastify · Prisma · FastAPI · Celery · SvelteKit

WOL Commerce: B2B and live commerce platform with in-house analytics and centralised media in MinIO. **Tutoring:** student ↔ tutor matching with auto-generated OpenAPI, Zod and Redis. **FIP:** financial intelligence with Celery queues and decoupled SvelteKit frontend.

SeaOPEX · Go REST API · IMS/AprenderAO

FreteMar / Personal

NestJS · Next.js 14 · Prisma · Go · Gin · MongoDB · QUIC/HTTP3 · Next.js 16 · Playwright

SeaOPEX: ship chandling management with JWT httpOnly and Next.js → NestJS proxy. **Go API:** dual-DB REST (PostgreSQL + MongoDB) with QUIC/HTTP3 protocol. **IMS/AprenderAO:** e-learning platform with PDF generation and Playwright E2E tests.
